

Latest Information: N/A

First Developed in This Format: November 2016

Rationale

- It is essential that the school communicates information in a timely manner to all stakeholders in accordance with established protocols, to protect the rights of individuals, to uphold our duty of care to students and to comply with departmental and legal requirements.
- The policies of Bayswater West Primary School guide and describe the main processes, functions and operations of the school. The development and review of policies is part of an agreed process to ensure that key stakeholders are part of the consultation and review process.

Purpose

- To ensure that the communication of information at Bayswater West Primary School is carried out correctly and in a manner that complies with school, departmental and legal requirements.
- To ensure all stakeholders are provided with information in a timely and effective manner.
- To ensure appropriate ongoing training is provided to all staff, teaching and non-teaching, and to new staff members as part of the induction process.

Implementation

- The school has a policy of open and cooperative communication. However, this practice recognises that the school has legal, departmental, local, professional and social obligations with regard to the communication of information.
- Parents/carers are readily able to communicate with teachers face-to-face at any mutually agreeable time throughout the school year, electronically by sending an email through to the school's email account, or in written format directly to the teacher.
- We value and actively seek input from all in our school community with the primary approach to seeking parental input through the members of School Council.
- Broader consultation throughout the school community will be undertaken where required and this consultation will be inclusive and non-discriminatory.
- It is important to note that consultation does not mean decision making. Nor does it equate that decision-making will simply be based on popularity of ideas or weight of numbers.
- DET employees are free to make public comment on issues relating to education, but in doing so, must be wary not to make comments that can be construed as negative criticism of our school, School Council, our community, staff or community members.
- As a matter of professional courtesy, and as a requirement of Section 3.6 of the Teaching Services (Conduct of Duties) Order 1998 staff will communicate with the Principal before making public comment or formal statement on educational issues or that bears on the organisation or program of the school or place of work. The Principal and School Council President will ensure that each other are informed.
- In providing advice to children, teachers should limit their advice to areas within their professional knowledge, ensure it is given in situations arising from a role specified by the Principal and ensure such advice is correct and in line with the most recent available statements. Please refer to the school's *Duty of Care Policy*.
- The *Privacy & Data Protection Act 2014* and the *Health Records Act* require that schools protect the interests of individuals with regard to their personal information and respect the individual's right to control how their personal information is used, and for what purpose.

- The school will only collect consensual information that it requires about individuals, and will only communicate and disclose information for the purposes for which it was collected.
- Any person seeking information from the school that falls outside the school's previous practices must be directed to the Principal who may require that a formal written Freedom of Information request be made.
- All such Freedom of Information requests will be referred to the Manager, Freedom of Information and Privacy Unit.
- Information sought by police, including interviews of students must be directed to the Principal.
- Requests from Department of Health & Human Services (DHHS) Child Protection Unit personnel regarding children or families will be complied with at all times. Please refer to the school's Police & DHHS Interviews Policy.
- The school will comply with court subpoenas to provide information at all times, but will not respond to requests from lawyers seeking information without DET approval.
- Action may be taken by individuals, the Department or organisations against staff members who choose to communicate information improperly.
- The school will table its Annual Report to the School Community at an open meeting of the School Council as soon as all components are finalised. This report will subsequently be made available to all in our community through the school's website. The content of the Annual Report will reflect the requirements of the DET.
- School Council records are not available to the general community. Please refer to the school's *Freedom of Information (Fol) Policy*.
- We will provide a minimum of two comprehensive written reports, two parent/carer - teacher interview per year for children and additional interviews upon request.
- The school will identify those aspects of its policies and procedures which must be communicated to staff and parents/carers. Please refer to the attached Communication Schedule.
- The school will identify the staff training that is required and who will be responsible for providing the training.
- Staff members may not communicate to students or parents/carers by any form of social media. Please refer to the school's *Staff Code of Conduct (General) Policy*.
- Please refer also to the *Policy Development & Review Policy*.
- The school has developed a schedule for dissemination of this information and for the associated training. Please see below.

Evaluation

- This policy will be reviewed as part of the school's review cycle or if guidelines change (no DET A-Z Index reference).

This policy was ratified by School Council in 1/05/2017
